## Programming languages

- C
- C++
- Java
- Python
- Javascript

## Skills

- Team work
- Fast learner
- Adaptability
- Leadership
- Communication
- Creativity
- Time management

## Profile

Enthusiastic and passionate engineering student who is always eager to learn new technologies and new skills. Currently, I am a second year student in Computer Science Engineering. I always admire open source learning and contribution.

## Education

Bachelor of Technology in Computer Science from Malwa Institute of Technology, Indore (July 2021 - April 2025)

1st year CGPA : **9.22**

Higher Secondary Education from Pink Flower Higher Secondary School, Indore May 2021

12th percentage : **95.4%**

## Internships

**(Data Analytics) IBM SkillsBuild Internship for Emerging Technologies by IBM SkillsBuild, Virtual**

June 2023 - August 2023

Data Analysis of Superstore Dataset. And have done hands on labs as part of learning plan.

**Web Development Internship by CodeClause Internship, Virtual**

June 2023 - July 2023

Created two normal projects and one golden project. Normal projects : Landing page, URL shortner. Golden project : Music Streaming application.

## Technical Skills

**Full Stack Web Development, Intermediate**

Frontend : HTML, CSS, JavaScript, ReactJs (Framework)

Backend : Nodejs, Django

Databases : MongoDB, SQL (beginner-level)

**Machine Learning, beginner-level**

Project : Image Processing with OpenCV

**DevOps, beginner-level**

Linux, Docker, Computer Networking, Kubernetes

**Data Structures and Algorithms, Intermediate-level**

## Courses

- Linux by KodeKloud
- Networking(learning plan) by Aws Skill builder
- Foundational Machine learning course by Google developers
- Complete Web development bootcamp by Udemy
- AWS Academy Introduction to Cloud Semester 1 by AWS academy
- Data Structures and Algorithms using Java by NPTEL Online Certification by IIT Kharagpur

## Hobbies

- Drawing
- Outdoor games and sports especially cricket
- Cooking
- Mehendi

## Member of Slack Communities

I like learning in public and open source learning and contribution provide the best way to learn in public and at the time of any query, there are mentors to help us. Some of the communities where I joined the slack.

- Komodor
- Cloud Native Computing Foundation(CNCF)
- Kubernetes

## Extra-curricular activities

Anchoring at Annual function

- I have done anchoring in the annual fest in college as the main anchor.
- I anchored almost all the functions organised by my college and even in my school time.

Participated in the drawing competition organised by Narcotics department

I have participated in the drawing competition organized by Narcotics department of Indore.

## Competitive Programming

- **Leetcode**

I have participated in the weekly and biweekly contests of leetcode.

I have also solved practice problems in leetcode.

- **Codechef**

I have participated in the weekly and biweekly contests of leetcode.

I have also solved practice problems in leetcode.
